POINT CITY FUEL ADMINISTRATION

CITY MUNICIPAL WOOD YARD TO RELIEVE SHORTAGE.

BUSINESS MEN COOPERATE

Conference Held Last Night at Regular Meeting of Chamber of Commerce and Ad Club.

In view of the emergency in which the city of Maryville and its inhabitants are placed by the present coal shortage and the lack of an yavailable future supply for an indefinite time,

And in view of the fact that this emergency arises just as we are entering upon what promises to be an unusually long and vigorous winter, therefore

Be it resolved, that a committee of three composed of W. O. Garrett, mayor the City of Maryville; Fred P. Robinson, chairman of the City Welfare board; and George A. Pickens, secretary of the Maryville Chamber of Commerce, be appointed as the Maryville Fuel Committee with full authority to act in the emergency.

Second—That the committee cause a survey to be made of the fuel supply in the city.

Third—That the committee prepare classification lists of all businesses, industries and institutions for the purpose of determining the priority of their rights to make demands upon the fuel supply of the city.

Fourth—That the committee shall from time to time make and publish schedules of the hours during which the businesses, industries an dinstitutions in the several classifications may remain open and may entirely close the same if found necessary.

Five—That the committee provide a municipal wood yard and otherwise take steps to develop new sources of fuel supply.

Six—That the committee be authorized to appoint all sub committees necessary to carry out its objects and purposes.

Signed

G. R. Ellison
R. J. Curfman
J. F. Hull

The above resolutions were adopted at a meeting of the Chamber of Commerce held last evening at the Bainum hotel at which was attended by fifty business men. The entire meeting was devoted to a disucssion of the fuel situation and as to what course should be taken in an effort to conserve and to get an equal distribution of the coal among the families of Maryville.

The discussion brought out the matter of organizing and establishing a municipal woodyard and the committee selected to have charge of the fuel situation went to work at once to see what could be done along this line. It is thought much wood can be secured around close to the city and can be sold here at a very reasonable price. No effort will be made to make a profit on this enterprise.

The Chamber of Commerce will borrow the money and give the same to the fuel committee for their disposition in getting and starting the woodyard.

Several of the business men in attendance at the meeting expressed their willingness to close their stores a few hours each day if the fuel committee decided it was necessary. The school board is also willing to close the schools but take the position that other business should close, too, if the schools are closed.

L. C. Cook, president of the school board, said they had about four hundred tons of coal on hand.

Manager C. C. Hellmers of the Electric Light & Power Co., stated that he was using oil altogether now in running the plant. He thought the light plant could run for [illegible] weeks more without any more [illegible]il. He has ordered several ca[illegible]nd unless the railroad should [illegible]p it was has opinion at this t[illegible]he light company will be in [illegible]d shape to give full service. M[illegible]ellmers did not think it would h[illegible]ry for an early closing of the [illegible]d other business places just at [illegible]me. He however, suggested that everyone should conserve by turning out all unnecessary lights.

The sentiment at the meeting was that the school coal should be used for the water plant and the light plant an dthat the homes of Maryville could be heated with wood. Many men stated they were using wood now instead of coal and some stated they were using wood and coal in their furnaces and had been able to save coal in this way.

President Richardson of the State Teachers college stated the college had enough coal on hands to keep open until the Christmas holidays and the school being a state institution was under the authority of the state and the matter of closing previous to this time would be for decision by the state authorities.

The few coal mines in the Quitman and Sunnybrook neighborhood were mentioned but several thought it would be impossible to get machinery and also that there would not be enough coal to do any good.

At the meeting a number of the members of the Maryville Advertising Club were in attendance and gave a number of songs.

REV. SNODGRASS PREACHES FORCEFUL SERMON LAST NIGHT

Church Comfortably Heated. Meetings Will Continue Until Fuel Committee Sees Necessary to Close.

Despite the cold weather of last nigth a good crowd attended the Christian church revival service and heard a splendid sermon given by the pastor, Rev. R. E. Snodgrass who spoke from the subject "Spiritual Isreal and Heavenly Canaan."

The church was comfortably warmed for the meeting. Sunday Mr. Snodgrass' offer to discontinue the meetings if Manager Hellmers of the power plant considered necessary as a matter of fuel saving, as the church is heated by the city plant. At the hour of service the arrangements are such that closing the building would make no appreciable difference in heat saving and Mr. Hellmers did not consider it necessary to close at present until there should be a more rigid general curtailment.

Tonight Mr. Snodgrass will speak from the subject "Why I am a Christian" and tomorrow night he will take for his subject "Why I am a Christian Only."

Last night the sermon by the pastor was a particularly strong and forceful one and his handling of the subject was an unusual one. He took up the leadership of Moses with the children of Israel and his conduct of them through the forty years in the wilderness and their entrance through the Jordan into Canaan, as a comparison of the life of a Christian comparing the bondage of the Isrealites to the daily steps of the Christian and his final entrance into Heaven.

The association is arranging for a series of meetings to be held all over the state in the smaller towns and at points more easily reached, then Kansas City and St. Louis which heretofore has been their meeting places.

Fred J. Yeomans of Sheridan was appointed executor of the estate of Sarah J. Yeomans, who died at Hopkins on November 27.

A marriage license was issued late yesterday afternoon to Alex F. Walker of Poplar Bluffs and Hattie Crigger of Maryville.

SECOND TERM AT TEACHERS COLLEGE BEGINS TODAY

Sufficient Fuel to Last Until Christmas Vacation Unless Coal is Needed by the City.

The second semester of the state Teachers college began this morning and on account of the fuel shortage the hours for the classe shave been reduced, the day beginning now at nine o'clock instead of eight, and closing at 3:30, making all class periods 45 minutes instead of one hour.

President Richardson made this announcement a tassembly this morning. The college has sufficient coal used economically to last until the Christmas holidays, unless it is necessary to give it to the citly for distribution Beyond that Mr. Richardson could make no statement for the contiuance of theschool. There are several cars ordered and in transit but there is no immediate prospect of any being received.

Many out of town students, who have been spending the Thanksgiving vacation at their homes ,arrived last night an dothers are coming in today.

Tomorrow morning at 10:30 the Y. M. C. A. will give a special assembly program.

NEED ASSISTANTS FOR FUEL SURVEY

WILL MAKE ESTIMATE OF ALL COAL IN CITY

LOCATE SUPPLY OF WOOD

Fuel Committe Spends Morning Driving Over County. Finds Large Quantity Available.

The city fuel committee, appointed last night at a meeting of the Chamber of Commerce which is composed of F. P. Robinson, chairman, G. A. Pickens, secretary and treasurer and Mayor W. O. Garrett want volunteers to help in a survey of the coal and fuel situation by making an estimate of all the coal in the city tomorrow morning. This survey will require a careful canvass and will need a good many workers. Any one willing to help can report to any of the committee.

The members of the committee were busy this morning locating wood. Each went in a different direction from the city and have located a considerable quantity. The municipal wood pile will probably be located at Gray's wood and coal yard.

The committee held a meeting late this afternoon to consider a closing order for various business houses and gatherings and also make out the prior ity list for fuel. There is no doubt but what some places will be placed on shorter hours and there will be a general curtailment everywhere. Every effort will be made by the committee to keep the essential productions supplied and protect both business houses and homes in their distribution.

MAY ABSORB BOTH HEAT AND KNOWLEDGE AT LIBRARY

The low temperatures maintained in most public places now in order to conserve fuel, has brought more than the average number of readers around to the city library the last few days where so far the building has been kept comfortable on account of the individual furnace. The average number of readers per day for the month has been 50 .

The report for the months is as follows:

Total number of books and magazines loaned, 1178
Average per day 47
Total number readers in rooms, 1446
Number reader cards issued 24.
Total amount of collections $15.70

GOVERNOR ENDORSE HEALTH WEEK MOVE

INTENSIVE CAMPAIGN STARTED BY SCHOOL CHILDREN

HEALTH BONDS FIRST

School Children Start First Big Sale of Christmas Seals Saturday. Rooms in Contest.

The school children of Maryville will sell Red Cross seals again this Christmas in order to aid the Missouri Tuberculosis association. In years past the Maryville children have been among the leaders in selling seals.

This year the need of funds is so great that a new plan will be employed. "Health Bonds" valued at five dollars each will be sold to any one who desired to contribute that much to the work. This bond, duly signed by all the officers of the association, carries monthly coupons such as the following: "Open Air Schools", "Tuberculosis Visiting Nurses," "Annual Physical Examinations," "Halth Education" and etc. Each bond is the equivalent of 500 seals. The buyer may have the seals also if he so wishes. An effort will be made between now and Saturday to sell as many bonds as possible.

On Saturday the children will start out with the Christmas seals. Each child selling 25 seals wins a squires button. Other buttons of higher value go to those who sell the required number of seals. All the different rooms of school children will have a friendly contest among themselves to see which room can sell the most. An appropriate prize will be given to the room which sells the most. If you buy a "Health Bond" tell the one selling it which room you wish to have credit for the sale. The school children of Maryville ask your help while they are doing what they can in fighting the most deadly disease there is.

The committee directing the campaign is composed of Supt. J. M. McDonald, Prof. A. H. Cooper, G. A. Pickens and Prof. Harry Miller.

The sale of these seals is no no way connected with the American Red Cross but is the work of the National Tuberculosis asociation and the funds are all used for the purpose of carrying on the fight against this disease.

The following letter has been issued by Governor Gardner in support of the Halth Week Campaign:

"One of the vital lessons learned from our experience in the great war was the recognition of the public health needs. The importance of this work is apparent as shown by the high percentage of rejections of men between the ages of 21 and 31 in the selective draft on account of tuberculosis.

The Missouri Tuberculosis association has done pioneer work in public health education. The Public Health Week movement contemplates the broadening and centralizing of all public health activities which are necessarily closely related. The work has my hearty endorsment.

November 30 to December 6th has been designated as Health Week and during that period an intensive campaign for the control of tuberculosis will be undertaken. From December 1 to 10th Red Cross Christmas seals will be sold throughout the state to finance the anti tuberculosis work. I earnestly hope that every citizen of Missouri will put forth his best effort to aid in this all important work which is so far reaching that it touches every home and every individual in the nation."

MEXICAN TROOPS REPORTED MOBILIZING ON BORDER

Largest Force Concentrating Opposite Presidio Texas, Since Jenkins Affair Became Critical.

El Paso, Dec. 2.—Carranza troops are reported concentrating along the border today. The largest force is said to be at Okjainia, opposite Presidio, Texas, where fifteen hundred additional Mexican troops are said to have arrived since the Jenkins affair became critical.

Washington, Dec. 2.—Carranza must meet the demands of the United States squarely or face the full power of the American government. This is the attitude taken by the administration today as the state department awaits answer from the latest note to Mexico.

FALL AND WINTER MANAGEMENT OF BREEDING EWES.

Experience has shown that ewes should always be healthy, have good teeth and be strong and vigorous. They should carry a moderate amount of flesh and it is essential that they be so cared for that they will not lose weight during the winter. Well fed ewes are most likely to give birth to strong vigorous lambs. Ewes that are in good condition will be more liberal milkers and thus better mothers. It is during the suckling period that the greatest demands are made on the ewes and in order to have the ewes in condition to stand this drain on their systems it is necessary for us to see to it that they are in good condition of flesh prior to lambing. To be sure to have them in proper condition we must begin in the fall and feed them properly throuout the winter, according to D. A. Spencer of the University of Missouri College of Agriculture. This cannot be accomplished in just a few days or even a month.

While it is necesasry to keep the ewes gaining during the winter and up until lambing time and they should receive liberal feed during this time, yet a large portion of their rations may be made up of cheap feeds of little commercial value. On most Missouri farms there are pastures, stubble fields and corn stalks to be utilized. Blue grass and timothy pastures may be grazed much of the time during the fall, but it is safer not to depend on these as the only feeds at this time. They should be used, but not as the sole ration.

When the ewes are in thin condition, it will be advisable to begin feeding grain along with roughage soon after the first of December. Unless the ewes are very thin in flesh, it is not necessary to feed more than a half pound a head daily for ewes weighing 150 pounds. A good ration consists of equal parts of oats and bran or two parts of oats, two parts bran and one part of corn. Where available, it may be economical to feed one half to two pounds of good clean corn sileage per ewe per day and about the same weight of clover or alfalfa hay. Where a good legume, such as clover, alfalfa or soybean hay make up the major portion of the roughage, it will probably not be necessary to give the ewes that are in good condition any grain until about six weeks before lambing. At this time it may be well to feed the ewes a little grain, about one quarter pound a head daily of equal parts of corn and oats. In any event, in compounding rations the farmer must realize that economy and efficiency should be the watchwords and feed enough to have the ewes gain from 15 to 25 pounds each during the winter.

PRESIDENT GIVES CONGRESS MESSAGE

URGES SETTLEMENT OF DOMESTIC TROUBLES FIRST.

IGNORES PEACE TREATY

Features Nation Wide Unrest as Big Issue Before the Country at Present.

Washington, Dec. 2.—Completely ignoring the peace treaty and featuring the nation-wide unrest as the big issue before the country now, the presidents anxiously awaited message to the sixty-sixth congress was read before both houses today.

Declaring the absolute need of declining a program to bring about improvement in the condition of labor, that the government must recognize the right for collective bargaining, the right to strike, but the government must protect people against the challenge of any class, and urged the United States to put its house in order by immediate consideration of the differences between capital and labor, the president said, "this is the hour of test and trial for America, let not her failure to settle matters domestic be proclaimed to the world."

In the matter of railroads the president said he would address congress later on.

COAL SITUATION GENERALLY MORE SERIOUS TODAY

Railroad Men Protest Against Handling Coal Dug By Volunteer Miners.

Pittsburg, Kan., Dec. 2.—Serious situation relative to the Kansas coal strike apparent today when it became known men belonging to the four railroad brotherhoods had held a closed meeting and adopted resolution protesting against the handling of coal dug by volunteer miners.

Washington, Dec. 2.—The coal situation is becoming more serious. Telegraphic reports to the national coal association indicate fewer miners at work today than at any time since the strike was called. West Virginia and New River fields are producing fifteen per cent less than last week. Other fields report similar conditions.

CARE OF THE FARM MACHINERY IN THE WINTER SEASON

The time will soon be at hand when the major portion of the farm machinery will be laid up for the winter and it is a matter of considerable importance as to wether this expensive equipment will be well cared for, or left out in the weather until the next spring, say farm experts. All machinery should be housed for the winter, and besides this, there should be a thoro inspection given each machine before it is put away. All broken parts should be noted and repairs ordered now, so that there will be no delay when the machine is again needed. All bearings and working parts should be well cleaned and then oiled to prevent rusting. All loose bolts should be drawn up tight, and minors repairs made at once. If it is impossible to house the machinery precaution should be taken against undue exposure to the elements. Machines should be well covered with a canvas, after being oiled, or a wood frame covered with tar paper provided to cover the working parts. A little care at this time will do away with a great deal of trouble in starting out next season.

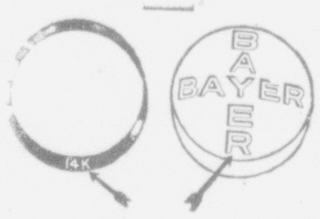
NAME "BAYER" MEANS ASPIRIN IS GENUINE

Get Relief Without Fear as Told in "Bayer Package."



The "Bayer Cross" on Aspirin tablets has the same meaning as 14 Karat on gold. Both mean genuine!

"Bayer Tablets of Aspirin" should be taken according to the safe and proper directions in each "Bayer" package. Be sure the "Bayer Cross" is on package and on tablets. Then you are getting the genuine Aspirin prescribed by physicians for over eighteen years for the relief of Colds, Pain, Headache, Toothache, Earache, Rheumatism, Lumbago, Neuritis.

For a few cents you can get a handy tin bo containing twelve tablets. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidster of Salicylicacid.—Adv.

HEAT A PLENTY.

The first remark that our patrons make on coming to the Tea Room is, how warm it is. We are able to keep the room warm mostly because of our large range. We also have oil heaters to insure a comfortable room.

We are serving many hot dishes now. And hot drinks of all kinds. You probably have heard about our coffee. So come up and enjoy a good warm home cooked lunch in a comfortable room.

Make Her a Present of Less Hard Work

Whether she does her own washing or hires help, still there is the responsibility and the dirt and muss and drudgery of it all on her shoulders, and anything that takes the hard part out of the work will make it easier for her.

The Electric Washer has really taken the drudgery out of wash day for thousands of women, and it not only makes the work many times easier but it does the work better and does it so much quicker that it saves hours of time and dollars in fuel.

Buy her something pretty, too, and a box of candy if you want to, but for the real Christmas present—

MAKE IT AN ELECTRIC WASHER.

THE UNIVERSAL CAR

Weak Links in a Strong Chain

That's just what imitation parts are when they become a part of your Ford car. They look strong enough but the metal isn't there—the strong, durable Vanadium steel that goes into the Ford chassis and every Ford part. Ford parts are specially cast and heat-treated, each according to its use. Some require a hard, flint-like wearing surface, others need resiliency, and some need just toughness."

Ford metallurgists have been studying these problems for sixteen years and know just how each unit should be made to endure a maximum of wear and tear. They know that best results can be obtained only by the use of special formulas for different parts, and that honest Ford parts wear from thirty-five to one hundred per cent longer than counterfeits.

We carry complete assortments of genuine Ford parts for both passenger cars and trucks. And our garage is equipped to give careful, prompt Ford service—from minor adjustments to complete overhauls. Drive in, it's better to be safe than sorry. Come to the Authorized Ford dealer for service.

For the Thoughtful Gift—

Mirro Aluminum

Something to keep, and use, and take joy in for a lifetime. That is the Christmas Gift of Mirro Aluminum.

Many a woman covets a set of this handsome durable ware with which to beautify her kitchen. The graceful design of Mirro, its rich silvery finish, and unusual features of convenience make it a delight to the eyes and a pleasure to use.

It adds to efficiency in cooking, too. Every home-loving woman will appreciate a gift of Mirro —a charming Colonial Coffee Pot, a shining Mirro Tea Kettle, or perhaps a combination of beautiful Mirro utensils.

Mirro costs no more than aluminum ware of less merit.

See our Christmas display of Mirro Aluminum.
